I do have an interest, especially if the Mayor is going to attend as well. There are quite a few issues going on in New Bedford and we are going to stay ahead of them.

Hi - we thought it would make sense to brief the MA congressional delegation about our upcoming proposal to use CAD cells as part of the harbor cleanup, especially if its a joint meeting with the City, MassDEP and EPA all speaking in support of the concept. Basically, we'd like them to hear about if from us before any constituents, now that we've been discussing the concept at the monthly abutters meetings. We're also hoping that Mayor Lang would be able to attend to underscore the City's support.

Thursday April 17th, 2008 has been proposed as the meeting date, preferably in Boston to increase the chances that Kennedy's and Kerry's staff will attend. Could you please let me know ASAP if this date works for everyone who needs to attend, as our liason will then need to schedule the meeting with the congressionals.

Thanks - Dave
